Spring Nest Cleaning & Shrinking Tips!

- **The 20/10 rule:** This involves breaking up your task a work time of 20 minutes followed by a nonnegotiable 10-minute break. The main idea is to train your brain to associate cleaning with reward.
- **Start in the most lived in rooms of your home.** Don't try to declutter your attic, home office, or sentimental collections first. Start with easier wins like the living room, bedroom, or car.
- **Physically touch every item in your home.** When you hold an item in your hand, you are forced to make a decision about it. Every item you touch can either be relocated, removed, or returned. Put as many things as you can in the remove pile.
- **Ask three questions.** Ask yourself three questions for every item you touch:

- Do I need it?
- Why do I have it?
- What would I use if I didn't own it?
